

Exit Chichester train station by the main door and turn left into Southgate Street. Take the footpath on the left hand side of the road and follow around to the pedestrian crossing on Avenue de Chartres. Cross over here following the footpath to the right. Stay on this footpath all the way up South Street to the Cross. Continue past the Cross into orth Street (pedestrian precinct).

Once the precinct ends, take the right hand footpath to the top of North Street. Now take the **underpass**. When you emerge from the underpass take the stairs immediately to the right. Take this footpath all the way along **Oaklands Way** (running parallel to the Northgate Car Park) until it reaches the corner of **College Lane** (opposite the Co-Op).

Keep to the left hand side of College Lane and take the exit that leads up onto a separate pathway that runs parallel to the road (do not walk on the lower pavement as this is quite narrow) until it ends and then cross over into the campus.
